

# Building Financial Resilience: 50,000 Lives Empowered

Dear All,

At State Bank of India, we believe that financial knowledge is the foundation of empowerment. Through our **Future Ready Finance program**, we have successfully reached over 50,000 students and underserved communities this year.

The program focuses on:

- Practical money management skills to encourage saving and budgeting.
- Digital banking awareness to help individuals adapt to a cashless economy.
- Workshops and mentorship delivered by our employees and financial experts.

By equipping people with the tools to make informed decisions, we are not only improving financial literacy but also building stronger, more resilient communities.

We remain committed to expanding this initiative globally, ensuring financial education is accessible to all.

**Best Regards**

Corporate Communications Team
